

Guidemap to Ukkoteeri and Pikkuhukka cottages

These instructions will guide you to Ukkoteeri and Pikkuhukka cottage!.

Ukkoteeri is located in Savonranta city. Savonranta is a small village of about 1000 inhabitants in the Savonlinna region, famous for its natural beauty. Savonranta is about 50km distance from Savonlinna.

We assume you are starting your trip from Savonlinna. You head up along road 14 and follow signs "Joensuu" and "Kerimäki".

After 12,5 km from Savonlinna there is a crossing where you should take a left turn to the road 71/Anttolantie. You'll see signs "Joensuu" and "Kerimäki" pointing direction you are heading.

Continue along this road 19 km and take left turn on a crossing where is a sign "Savonranta". Head on about 13 km and you'll see a sign left "Syvälahdentie" and also our blue sign "Järvilomat".

Head along "Syvälahdentie" about 5,5km. Then you'll see on your right a road named "Vänikantie". You'll also see our blue sign "Järvilomat" here. Take a right turn! You are almost reached the cottage.

It's about two kilometers from here until you are in our Ukkoteeri cottage. Follow the signs and you'll sure find it!

If you are using gps navigator it might find "Vänikantie, Savonranta/Savonlinna" easier than Syväniementie.

When you arrive to the Ukkoteeri cottage area first you'll see info sign which will guide you to the cottage. Keys for the cottage you'll find in keylocker beside the maindoor. Both cottages have own keylocker. Ukkoteeri cottage keys fits in sauna. We will give you four digit codes for the lockers before your holiday starts. Please return keys in the lockers before check out!

Be careful with the keys!

Ukkoteeri and Pikkuhukka cottages. Address Syväniementie 138, 58300 Savonranta, Finland

Instructions for your stay

Check in time is 16.00 and check out time is 12.00.

Remember to bring your own bedlinen and hygiene accessories. We usually don't have any other spices than salt so if you need anything else remember to bring them. Tableware for eight (Ukkoteeri) and four (Pikkuhukka) can be found in cottages closets.

In Ukkoteeri cottage is a dishwasher (remember to put water on using switch beside kitchen faucet) and in bathroom is washing machine (put water also on with this one). Cleaning tablets for dishwasher is in kitchen closet but you have to bring cleaning fluid for washing machine. In bathroom is also a hairdryer. Clothes you can dry outside in terrace where is drying rack.

In bedrooms are single beds, one closet, mirror and a reading light on a small table.

In kitchen is a dishwasher, a microwaveoven, normal oven, a stove, fridge with freeze, a kettle, a coffee maker and a toaster

When you light up stove use small woods and paper etc. to start the fire. Leave stove door open just a littlebit so fire starts properly. When fire is fully started you can close the door. You can adjust the power using switch which is in downside of the stove. Remember to bring your own matches.

Follow same instructions when you are starting fire in sauna. Wood you can find in the woodshed and in the block situated in the center of the yard.

Sauna is a traditional finnish sauna where you wash yourself in sauna. If you need shower use one in the mainbuilding. You can heat water in saunastove. You will get good heat already after one hour heating but if heat up stove two or three hours you will get super hot steam! Be always careful with fire and using sauna. We don't have beach covers in sauna so bring your own if needed.

Woodfiring heater in hottub works using same instructions above. Remember to put first water in hottub and after that start the fire – heater will be damaged if you use it without water! Fill water using waterhose behind the sauna – do not overfill! Hottub will require continuous heating over many hours (summer min. 4h ja twinter min. 6h). Remember to empty hottub after use!

Wooden terraces are often slippery when it's rains – be careful!

Gasgrill is in the terrace beside Ukkoteeri. First open gas bottle from a switch above the bottle. Close gasgrill lid. In the gasgrill there is three switches in front. Use one in left first. Turn it anticlockwise littlebit and you hear gas flowing. Then turn a bit more and you hear clicking sound and fire should start. If fire started open other two switches also. If fire don't start using grill's own starter you can carefully use matches to start the fire. If there is really windy weather grill can shut down. When you have finished grilling turn first off valve on the bottle then turn off switches in the grill.

We have smokebox in the cottage. We have also a small woodworking grill beside the sauna.

You can find a rowboat in shore beside the sauna. We have two life vests - one small and one big one. If you need more lifevests remember to bring your own. After using rowboat remember to tie up the boat carefully and put oars inside the boat!

It's quite shallow in the end of the pier so be careful!. If you want to fish remember to bring your own fishing equipments and purchase fishing permits!

And last but not least – you are on a cottage holiday and sometimes it requires an adventure spirit!

Happy holidays!

Järvilomat
